### **ABOUT ORGANIZERS:**

ALSUN Technologies LLP (an ISO 9001:2015 Certified Organization) is consistently working on Child Skill Development Programs through innovative ways of learning. Dedicated research and development department of Alsun is constantly working to invent new methods for 360 degree development of student's brain power and skills. Our various child centric programs enhance child concentration and focus power by up to 60% - 80% and also eliminate phobia of studies thereby minimize the stress level and time to learn.

### **ABOUT MATHEMATICIAN OF THE NATION CONTEST:**

The aim of Mathematician of the Nation contest is to provide competitive platform to students and identify talent at national level. This contest is first of it's kind which basically focuses on child's brain power to process information with speed and accuracy, and mathematics is best platform for this.
