# DO MOTHERS NEED IT ?

## You're not alone:

If you think computers and the internet are not for you.  
If you think you're too old or stupid to use it.

Computers and the internet have become a part of everyday life, from staying in touch with friends and family, sharing photographs to booking tickets or doing shopping online or helping children in their assignments.

## Need of Computers for Homemakers in daily life:

Since the computer is the gateway to so many convenient services, information education in schools have been the focus of many researchers and governments. Housewives often have less opportunity to get information about computers and suffer from several computer anxieties, which made it difficult for them to work & update themselves in this IT World. As per a survey women try to get some knowledge of Computer from Husbands, Children, friends to operate the system.

## Little knowledge can be dangerous:

Lesser knowledge of computers & IT may result in

- Slow Running
- Freeze ups
- Display Errors
- Unwanted Popup
- Virus attacks
- Frequent Hangup
- OS Crash
- Data losses
- Overheating
- Victim of Hackers
- Searching data
- Optimum web browser
- Printing & Printers
- Connecting Wi-Fi & Bluetooth
- Emails & Social Networking
- Remote support

# COMPUTER & IT EDUCATION FOR MOTHERS

## Objectives of Mocomputer Program:

The course is designed to aim at imparting a basic level appreciation program for the mothers.

Our purpose is to develop a learning environment that helps mothers to improve their computer skills and thus become more comfortable & safe while using them.

With the spread of the Internet, we have more incentive to use computers in daily life. After completing the course the mothers will be able to perform functions as mentioned below in program highlight.
